Software Engineer at Samsung R&D, ICPC Asia West '25 Participant & Passionate problem-solver with expertise in DSA and Competitive Programming. Experienced in C++, C#, Python, and Kotlin, with a focus on Software Development and Machine Learning.

EXPERIENCE

Intern at Samsung Research & Development, Bangladesh

February 2025 – May 2025

Software Engineer: Samsung Research & Development, Bangladesh

May 2025 – Present

- Developing & maintaining production-grade systems with emphasis on performance, correctness, and scalability
- Actively involved in debugging complex issues, optimizing logic, and improving code quality
- Collaborating with cross-functional teams through code reviews, design discussions, and iterative development.
- Selected for a 3-month onsite assignment in Seoul, South Korea, collaborating with Samsung engineers on software development, debugging, and cross-team engineering initiatives.

Mentor (Competitive Programming) at Shohoj Coding

December 2025 – Present

- Providing mentorship to juniors in Data Structures and Algorithms.

AI Trainer: Scale AI / RemoTasks

June 2023 – August 2023

- Solved DSA problems for AI training Dataset
- Written solutions & test cases for Problems

PROGRAMMING COMPETITIONS

Individual Competitions & Problem Solving

- Solved 4000+ problems on major online judges. (codeforces 2600+, LightOj 320+ etc.)
- Finalist of SRBD Code Contest in 2023 & 2024. Also 3rd position in 2024th onsite contest
- 5* on CodeChef, Expert (rating: max 1847) on Codeforces.

Team Competitions

- ACM ICPC Competitions:
 - ACM ICPC Asia West Participant 2025
 - Asia Dhaka Regional Contest: 2021 (Ranked 25th), 2022 (Ranked 25th), 2023 (Ranked 38th) & 2024 (Ranked 21st).
- NCPC hosted by JU 2023:
 - **Final:** Ranked 15th & **Preliminary:** Ranked 14th out of 1300+ teams (Team: JU_BinaryMosFet)
- BUET CSE Fest IUPC 2023: Ranked 7th out of 100 teams (Team: JU_theOdd1out)
- KUET CSE Fest IUPC 2025: Ranked 18th out of 160 teams (Team: JU_BinaryMosFet)

PROJECTS & PUBLICATION

From Code to Career: Assessing Competitive Programmers for Industry Placement

- Built a machine learning model to predict industry placement using Codeforces performance data
- Analyzed competitive programming metrics, rating progression, and problem-solving behavior
- Published as an IEEE conference paper (QPAIN) [IEEE Xplore ID: 11171661](#)

SKILLS

- Languages: C++, C, Python, C#, Kotlin
- Frameworks/Tech: WPF, WCF
- Core Strengths: DSA, Competitive Programming, Algorithmic Optimization

EDUCATION

Notre Dame College
HSC in Science

Dhaka
GPA : 5.00/5.00 || 2017-2019

Jahangirnagar University
B.Sc. in [Institute of Information Technology](#)

Savar, Dhaka
CGPA : 3.57/4.00 || 2020 – 2025
